

МАТЕМАТИЧЕСКИЙ СБОРНИК
Том 112 (154) (1980), № 1—4
MATHEMATICS OF THE USSR-SBORNIK
Volume 40, Numbers 1—4, 1981

AUTHOR INDEX

| | |
|--|-----|
| Aĭrapetjan, R. A. <i>Boundary properties of an integral of Cauchy-Leray type in piecewise smooth domains in \mathbb{C}^n, and some applications</i> | 1 |
| Bikčantaev, I. A. <i>Analogues of the Cauchy kernel on a Riemann surface and some of their applications</i> | 241 |
| Budkin, A. I. <i>The axiomatic rank of a quasivariety containing a free solvable group</i> | 583 |
| Davidjan, V. R. <i>On points of coincidence of two mappings</i> | 205 |
| Dëgtev, A. N. <i>On reducibilities of numerations</i> | 193 |
| Evdokimov, S. A. <i>A characterization of the Maass space of Siegel cusp forms of second degree</i> | 125 |
| Evgrafov, M. A. <i>Estimates of the fundamental solution of a parabolic equation</i> | 305 |
| Fonarev, A. A. <i>On the approximate construction of an implicit function</i> | 429 |
| Gal'čuk, L. I. <i>Optional martingales</i> | 435 |
| Henkin, G. M. See Sergeev, A. G. | |
| Himčenko, B. N. See Kamynin, L. I. | |
| Iosif'jan, G. A. See Oleinik, O. A. | |
| Ivočkina, N. M. <i>The integral method of barrier functions and the Dirichlet problem for equations with operators of Monge-Ampère type</i> | 179 |
| Kamynin, L. I. and Himčenko, B. N. <i>On the strong extremum principle for a $D(\Pi, \Omega)$-elliptically connected operator of second order</i> | 21 |
| Katrahov, V. V. <i>General boundary value problems for a class of singular and degenerate elliptic equations</i> | 325 |
| Kraščikov-Ternovskii, I. F. <i>Spectral synthesis on systems of convex domains. Extension of the synthesis</i> | 87 |
| Lizorkin, P. I. and Otelbaev, M. <i>Imbedding theorems and compactness for spaces of Sobolev type with weights. II</i> | 51 |
| Meĭrmanov, A. M. <i>On the classical solution of the multidimensional Stefan problem for quasilinear parabolic equations</i> | 157 |
| Muhin, V. V. <i>Invariant measures on semigroups and imbedding topological semigroups in topological groups</i> | 277 |
| Oleinik, O. A. and Iosif'jan, G. A. <i>On the behavior at infinity of solutions of second order elliptic equations in domains with noncompact boundary</i> | 527 |

| | |
|--|-----|
| Otelbaev, M. See Lizorkin, P. I. | |
| Pavlov, A. I. <i>On the number of solutions of the equation $x^k = a$ in the symmetric group S_n</i> | 349 |
| Pontrjagin, L. S. <i>Linear differential games of pursuit</i> | 285 |
| Radzievskiĭ, G. V. <i>Asymptotics of the distribution of the characteristic numbers of operator-valued functions analytic in an angle</i> | 363 |
| Rahmanov, E. A. <i>On the convergence of Padé approximants in classes of holomorphic functions</i> | 149 |
| Savel'ev, I. V. <i>On the topology of a complex-analytic normalization</i> | 267 |
| Seifullaev, R. K. <i>The Riemann boundary value problem on a nonsmooth open curve</i> | 135 |
| Sergeev, A. G. and Henkin, G. M. <i>Uniform estimates for solutions of the $\bar{\partial}$-equation in pseudoconvex polyhedra</i> | 469 |
| Skljarenko, V. A. <i>On integration by parts in Burkill's SCP-integral</i> | 567 |
| Stepanov, S. A. <i>Diophantine equations over function fields</i> | 79 |
| Šurenkov, V. M. <i>Transitional phenomena of renewal theory in asymptotic problems of the theory of random processes. I</i> | 107 |
| ———. <i>Transitional phenomena of renewal theory in asymptotic problems of the theory of random processes. II</i> | 211 |
| Tkačenko, V. A. <i>Spectral theory in spaces of analytic functionals for operators generated by multiplication by the independent variable</i> | 387 |
| Zaicev, A. A. <i>Positive polarizations and abelian ideals in Lie algebras</i> | 227 |
| ———. <i>Conditions for the nontriviality of the Hilbert space of a holomorphically induced representation of a solvable Lie group</i> | 509 |
| Zel'manov, E. I. <i>Absolute zero divisors in Jordan pairs and Lie algebras</i> | 549 |
